**Gretna City Park Grand Reopening
and Ribbon Cutting**

Friday, April 28, 2023

11:00 am

Gretna City Park Pavilion

Parking at Claire Avenue entrance near 32nd Street

Gretna, LA: Please join the City of Gretna for the official reopening of Gretna City Park. The Gretna City Park project is the first phase of the Gretna Resilience District and the first infrastructure project completed with funding from the Louisiana's Strategic Adaptations for Future Environments (LASAFE) program through the Louisiana Office of Community Development.

This project transformed an existing 80-acre park by creating significant additional stormwater storage capacity (6.5 million gallons) and public facilities. Facilities include 1.5 miles of trails, a kayak launch, an open-air pavilion, fishing piers and more. The park improvements are designed to prevent flooding in the surrounding neighborhoods while restoring natural wild meadows, forests and aquatic ecosystems for native wildlife, as well as providing new amenities to benefit the community.

Please RSVP your attendance at your earliest convenience at <https://www.gretnala.com/citypark/>.
